Tranquility on Main Street – An Interview with Danielle Hunter, Massage Therapist and Business Owner of a new Main Street Business

Tell us about you and the business:

I'm Danielle Hunter, I have been massage therapist over 7 years with experience in all fields. I graduated with an Associates Degree in Massage Therapy from Heritage in Wichita, KS. Originally from Ness City, Kansas, I now call Great Bend my home, where I live happily with my loving husband and two beautiful children.

The business has been a dream of mine for many years now. With being a spa we were able to adapt to the building we have found.

Entrepreneurship Resources with Great Bend Economic Development

Entrepreneurs are the key to success in rural communities. If you have interest in creating a business, reach out to us today for help with business planning, financial analysis and access to start up loan funding. Great Bend Economic Development partners with many experts in the entrepreneurship field to bring you all the resources you need to get started successfully.

Why did Ruhe Rituals choose to locate in Barton County?

We have lived here for 4 years and we have no plans on leaving therefore this is the area we are opening our business in.

Why do you like to do business in Barton County?

This is the first for me to have a business in Barton County but I am excited to see what kind of support we receive from the community.

What inspired you to start your business?

It's been a work-in-progress for some time now but with all of the interest after presenting at the IGNITE competition I knew it was something we could not do it.

What did your startup plan and timeline look like?

It was all based on finding a property that best fit our needs. Once we found

that it was going to have to be a quick turn around as we are offering services and if you can't offer services then you have no income.

Do you have any advice for entrepreneurs starting out?

It's tough. Don't expect it to be easy or for anything to go perfect. Always keep an open mind and back up plans for everything.

What obstacles have you faced and how did you overcome them?

Our largest obstacle has been financing. It's not cheap to start a business in today's world. We are starting small and will slowly keep updating and adding new services as we grow as a business.

Follow along on our journey

We are elated with the momentum gained and plan to continue to capitalize on the current progress and continue pushing forward on many ground breaking projects.

Bright Beginnings Childcare Center: A Beacon of Innovation and Excellence in Barton County

Anticipation Builds as ABCC's State-of-the-Art Facility Nears Completion, Promising Quality Education and Supportive Staff Culture for Young Minds

ABCC's highly awaited childcare facility, Bright Beginnings, is nearing completion, with its spring 2024 opening generating excitement among families in Barton County. The center aims to revolutionize childcare in the area by introducing innovative programs and activities.

A key highlight is the Watch Me Grow system, enabling real-time monitoring of children through a dedicated app. Bright Beginnings has chosen the High Scope curriculum, tailored for infants, toddlers, and preschoolers, ensuring a high-quality educational experience.

Beyond its educational offerings, the center stands out by prioritizing its staff with above-average pay, benefits, and continuous education for all team members. The commitment to excellence extends to the hiring process, with plans to onboard 11 staff members for lead teacher, assistant teacher, and part-time positions. A dedicated apprenticeship program for part-time staff emphasizes growth and mentorship, with job details available on the ABCC website.

As Barton County eagerly awaits Bright Beginnings' opening, the center represents a symbol of warmth and growth for the community's youngest members. With a focus on innovation, quality education, and a supportive staff culture, Bright Beginnings is poised to be a cherished resource for families seeking a nurturing environment for their children.

CHILD CARE TAX CREDITS

In today's dynamic corporate landscape, good business leaders recognize the pivotal role of well-being of their employees. One effective strategy to support this balance is by providing child care assistance, which not only boosts employee morale but can lead to substantial tax benefits.

FEDERAL CREDIT

Businesses that provide child care facilities or services directly to their employees are eligible for this credit. An employer must only meet one of the following requirements to claim the full 25% credit:

1. Build, acquire, and then operate an in-house childcare center.
2. Contract with a licensed childcare program (including home-based providers).

A business also has the opportunity to claim a lesser credit of 10% if they don't meet the above requirements but meet the following:

1. Contract with a third-party referral service to find childcare for their employees.

For both the 25% and 10% credit, the yearly limit is \$150,000, meaning a business will not be able to claim more than this amount, even if the credit they receive from their qualifying expenses is greater than this amount.

KANSAS CREDIT

The state of Kansas has several criteria a business can meet to be eligible for the credit. A business must be an income tax or privilege taxpayer and either:

1. Pay for child day care services for its employees, OR
2. Locate child day care services for its employees, OR
3. Provide facilities and necessary equipment for child day care services to its employees, OR
4. Provide access to available child day care services for its employees.

In addition to the above requirements, the child care facility must be registered or licensed by the Kansas Department of Health and Environment. The child care facility must also be primarily used by dependent children of the business's employees.
